Title: Swinburne: Already on your way

Creator: Swinburne University

Year: 2025

Real experience, real skills and real connections, right now. If you're on your way to Swinburne, you're already on your way.

[0:01 — 0:04]

(On a seemingly ordinary train carriage, a student, Issy, sits in her seat, drawing on a tablet. She looks up at the digital sign in the carriage that reads: "Next Stop: Swinburne University". We hear her inner monologue as she turns to look out the window at passing scenery.)

Issy VO: I'm on my way to turning my ideas into realities.

[0:05 – 0:06]

(We cut to another seated student, Manny, listening to music on his in-earphones.)

Manny VO: I'm going to help those who need it.

[0:07 – 0:09]

(Now, we see another student, Jen, standing and holding onto the pole.)

Jen VO: I'm on my way to building new skylines.

[0:10 – 0:23]

(Manny steps off the train doors, straight into a bustling medical facility. We cut to Jen stepping out onto a construction site as she puts on a hard hat. Next, we cut to Issy as she walks down the carriage and exits the train onto a commercial set, where she's handed a clapperboard.

Then, in a series of quick cuts, we see other students stepping into workplaces: an electrical engineering laboratory, an aircraft hangar and a cyber security hub. As the students step boldly into these worlds of work, the voiceover continues.)

VO: With real experience, real skills and real connections, right now. You're already on your way, if you're on your way to Swinburne.

[0:24 – 0:26]

(All three students laugh as they walk together through Swinburne's Hawthorn campus.)

[0:28 – 0:30]

(Swinburne's next gen_now logo appears over a white background.)

VO: Next gen_now
